

SHIKHA SINGH

SOFTWARE ENGINEERING | FULL-STACK DEVELOPMENT | MACHINE LEARNING | AI/ML

Mumbai Metropolitan Region, India • shikhasingh.70219@gmail.com • linkedin.com/in/shikha-singh-20460a283 • github.com/shikhasingh0101 • leetcode.com/u/shikha_singh0101

SUMMARY

Computer Science undergraduate with 2 software development internships and hands-on projects across web, mobile, machine learning and AI applications. Experienced with Python, React.js, Flutter, JavaScript, Scikit-learn, REST APIs, SQL and Git, with practical work in data preprocessing, feature engineering, algorithms and application development.

EXPERIENCE

Globo IT Solutions — Frontend Developer | Jul 2025 - Dec 2025 | Maharashtra, India

- Designed UI components and screens in Figma, translating design specifications into responsive web interfaces.
- Engineered frontend interfaces with HTML, CSS, JavaScript and React where applicable, applying responsive design, accessibility, usability and visual consistency.
- Collaborated with design and development teams through agile meetings, design reviews and feedback cycles to refine product interfaces.

Vaid Public Relation — Web Developer | Apr 2025 - Jul 2025 | India

- Developed and deployed a responsive blog website using React.js, HTML, CSS and JavaScript with API-driven content.
- Integrated REST APIs to retrieve and display website content while addressing responsive behavior and cross-browser compatibility.
- Maintained source code with GitHub and refined structured implementation through iterative website feedback.

PROJECTS

AI Customer Intelligence | Python, Pandas, NumPy, Scikit-learn

- Developing a customer-intelligence ML workflow for exploratory analysis and data-driven customer-pattern identification; applying data cleaning, preprocessing, custom imputation, categorical encoding, transformations, feature engineering, classification and model evaluation.

Weather AI | Python, External APIs, Ollama

- Engineered a Python weather application that retrieves weather information through external APIs and integrated Ollama for AI-assisted conversational responses.

RiseCapital | React, Node.js, Express, MongoDB

- Developed a Direct Market Access platform concept for farmers, connecting a responsive web interface with backend application and database workflows.

Hatsoff Accessories | React.js, JavaScript, HTML, CSS

- Built an e-commerce application focused on product presentation, responsive layouts and a digital shopping experience.

Student Job Tracker | Flutter, Dart

- Created a Flutter mobile application for organizing and tracking student job opportunities through structured screens and workflows.

Smart Chat Application | C++, OOP, Data Structures, Algorithms

- Programmed a C++ chat application applying object-oriented programming, data organization and algorithmic logic to core application functionality.

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, HTML, CSS, Dart, SQL

Web Development: React.js, Next.js, HTML5, CSS3, Responsive Web Development, REST APIs

Mobile Development: Flutter, Dart

Databases & Backend: SQL, MongoDB, Firebase, Node.js, Express.js, REST APIs

Machine Learning: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, EDA, Data Preprocessing, Feature Engineering, Classification, Model Evaluation, Model Explainability

AI & Tools: Artificial Intelligence, Generative AI, Ollama, Git, GitHub, Streamlit, Jupyter Notebook, Figma, Cisco Packet Tracer

Computer Science: Data Structures and Algorithms, Computer Networks, Software Development Principles

CERTIFICATIONS

Generative AI Content Creation — Coursera (Nov 2025) • BuildWithIndia — HackWithIndia (Mar 2025) • Ignitex MOOC — Wadhvani Global Entrepreneur (Oct 2025) • HackerRank — Java, JavaScript, Problem Solving, SQL Basic (Oct 2024)

EDUCATION

ITM Skills University | Bachelor of Technology (B.Tech), Computer Science | Aug 2023 - Jul 2027 | India
